	CHAPTER – 25	
25	**POLICY ON FUNDS MOBILIZATION AND OPTIMAL UTILIZATION OF RESOURCES**	
	Framed and implemented w.e.f. 01.01.2018, Latest update w.e.f. 01.06.2025	
25.1	**Funds Mobilization**	
	The institution regularly analyses ways to enhance revenue from various sources on a yearly basis. The possible sources of funds for Higher Education Institutions (HEIs) include student fees (college, transport, and hostel), scholarships from government and private bodies, research grants from various funding agencies, corporate CSR funds, MODROB/FDP/STTP and similar grants, faculty consultancy, IPR and startup dividends, online/MOOC courses, and services offered to external parties using equipment, computers, software, and other similar resources related to HEIs.	
25.2	**Optimal Utilization of Resources**	
	The institution has its vision, along with long-term and short-term goals. The Planning and Monitoring Board (PMB) seeks budget requirements for various heads, with inputs from the Governing Council and IQAC. Based on the current academic year's budget versus expenditure, and the priorities for the next academic year, the budget is prepared by the PMB and the Principal and submitted to the management for approval. After receiving management approval, the respective HoDs/In-charges can utilize the allotted budget for the specified purpose. The PMB monitors budget utilization on a regular basis, while both the PMB and IQAC ensure the optimal utilization of resources.
