

	CHAPTER – 4	
4	ACADEMIC PROCEDURE	
	<i>Framed and implemented w.e.f. 01.01.2018, Latest update w.e.f. 01.06.2025</i>	
4.1	Academic Calendar (AC)	
	Under Autonomous System, CDDA prepares an Academic Calendar (AC) for each academic year and circulates it to all departments at the beginning of every semester. Based on this, each department develops its own AC. The Academic Calendar specifies the schedule for Internal Assessment Tests (IATs), model examinations, and end-semester examinations, major academic and co-curricular activities at both college and department levels and the list of working days and holidays.	
4.2	IATs / Model Exams and Continuous Assessment Marks	
	As per the Autonomous Regulations, Internal Assessment Tests (IATs) are conducted each semester. Generally, two or three IATs are held per semester, with equal weightage in the Continuous Assessment (CA) marks. As per R2021, the CA component carries 40 marks, while the End Semester Examination (ESE) carries 60 marks. Each IAT has duration of 180 minutes, and the question papers are set in accordance with the autonomous pattern, incorporating Course Outcomes (COs) and Bloom's Taxonomy levels. The Continuous Assessment (internal) marks are calculated based on the students' performance in the IATs.	
4.3	Absentees for Tests	
	Absence from the test is not permitted, and no leave or On-Duty (OD) will be sanctioned during the scheduled test period. In cases of absence or OD on valid grounds, an alternate test will be conducted with the prior approval of the Head of the Department (HoD) and the Principal. If a student is absent without a valid reason, the student must appear before the respective HoD along with a parent/guardian and obtain permission before being allowed to proceed further.	
4.4	Remedial Classes and Retests	
	If a student secures less than 50% marks in an IAT, the course faculty shall arrange remedial classes, commencing immediately after the completion of the IAT. The Head of the Department (HOD), in consultation with the Principal, will prepare the schedule for the remedial classes and the corresponding retest.	
4.5	Text books and Reference books	

	The autonomous syllabus generally specifies two prescribed textbook and a few reference books. The course faculty will upload the soft copy of the prescribed textbook in the Learning Management System (LMS) / Google Classroom (GCR) for student reference. Sufficient hard copies of the prescribed and reference books are also available in the central library. In addition, faculty lecture notes, PPTs, previous years' question papers, videos, and MOOC course materials are provided by the faculty through the LMS. Students are expected to make effective use of these resources to enhance their knowledge and perform well in examinations.	
4.6	Student Attendance	
	As per the Autonomous Regulations, students must secure a minimum of 75% attendance in order to be eligible to appear for the End Semester Examination. The relevant provisions of the autonomous regulations shall be referred to from time to time for any updates or clarifications.	
4.7	Autonomous Regulations and Guidelines	
	For B.E., M.E., M.B.A., and M.C.A. students, the respective Autonomous Regulations shall serve as the final guidelines. Students and faculty are expected to adhere to them meticulously. Any changes or updates will be communicated by CDDA to the HoDs through the Principal. The HODs shall, in turn, inform the faculty and students. Such updates will also be made available on the college website. It is the responsibility of each student and faculty member to regularly refer to and comply with the applicable regulations.	
4.8	Procedure for Final Year Project work: UG & PG (Refer Autonomous Regulations)	
4.9	Conduct of Laboratory Classes (Refer Autonomous Regulations)	
4.10	Other Aspects (Refer Autonomous Regulations)
